+880 1720 601 480; +880 1670 347 415;

With a decade of experience in project management and engineering, I am proficient in overseeing facility operations, infrastructure development, and technical integration. My expertise lies in project planning, execution, and ensuring compliance with regulatory standards. Furthermore, I am experienced in leading teams, ensuring operational excellence, and optimizing maintenance processes.

WORK EXPERIENCE

Akij Mediplex Limited

Akij House, 198 Bir Uttam Mir Shawkat Sarak, Tejgaon, Dhaka

Akij Mediplex, a concern of Akij Resource, is a healthcare provider in Bangladesh that offers modern treatments and diagnostic services, inpatient and outpatient care, and consultation. It focuses on compassion, innovation, integrity, and preventive healthcare.

Dy. Manager-Project Ops. & Maintenance

11/2025 - Present [Full-time]

As the Deputy Manager (Project Operation & Maintenance) at Akij Mediplex, my key responsibilities are:

- **Facility Operations Management:** Manage 24/7 facility operations including MEP (Mechanical, Electrical & Plumbing) systems and biomedical equipment.
- **Healthcare Infrastructure Support:** Support and sustain diagnostic and hospital operations through reliable infrastructure management.
- **Project Management & Coordination:** Lead project management and coordination for civil construction, interior, exterior, and MEP works during the project phase.
- **Preventive Maintenance Oversight:** Oversee preventive maintenance programs to ensure continuous and efficient facility performance.
- **Vendor & Contract Management:** Manage vendor relationships and service contracts for facility and equipment support.
- **Regulatory Compliance:** Ensure regulatory compliance across all operational and facility management activities.

AKS KHAN Healthcare Limited

Rupayan Prime, House 2, Road 7, Dhanmondi, Dhaka

AKS Khan Healthcare Ltd. offers diagnostic services and medicines through pharmacies, including radiology and lab testing.

Manager – Project Management

04/2024 - 10/2025 [Full-time]

As the Manager - Project Management, my roles were in operational expansion, infrastructure development, and technical integration. The key responsibilities and roles' focus include:

- **Project Planning & Execution:** Develop comprehensive project plans and ensure regular coordination for smooth and timely operations.
- **Operational Management:** Oversee projects from initiation to completion, monitor progress, and proactively mitigate risks
- **Outlet Renovation & Maintenance:** Manage physical development of model pharmacies, diagnostic centers, and clinics, including interior design, mapping, electrical, and plumbing works.
- **Expansion & Retail Rollout:** Drive new store setups, remodel existing sites, and ensure compliance with applicable standards and guidelines

- **Procurement & Budgeting:** Verify Bill of Quantity (BOQ) for construction materials to ensure cost efficiency and manage vendor relationships effectively.
- **Technical Integration:** Collaborate with IT teams to integrate Electronic Medical Record (EMR/EHR) systems across diagnostics and pharmacy outlets.
- **Strategic Collaboration:** Coordinate with Supply Chain, Diagnostics Operations, Finance & Accounts, and Business Development departments to ensure aligned operational goals.

Divine Mercy Hospital Limited

Mothbari, Kaligonj, Gazipur, Dhaka

Divine Mercy Hospital Ltd., a leading multi-specialty healthcare institution with a capacity of 300 beds, is dedicated to providing exceptional medical care.

Project Engineer – In charge of the Engineering Dept. 07/2018 – 03/2024 [Full-time]

As the Project Engineer-in-Charge, you will oversee technical functions, facility maintenance, and infrastructure projects at a 300-bed hospital. Your key responsibilities include:

- **Utility and Infrastructure Management:** Ensure the continuous and reliable operation of critical hospital utilities, including electrical power, HVAC, water, and medical gas systems, to support uninterrupted patient care.
- **Project Execution and Oversight:** Plan, organize, and implement hospital infrastructure improvements, renovations, and construction projects while adhering to healthcare facility standards.
- **Technical Leadership and Guidance:** Lead and mentor the engineering team, providing expert technical recommendations to senior management on equipment upgrades, facility improvements, and system optimizations.
- **Regulatory Compliance and Safety:** Enforce health and safety regulations, ensuring compliance with healthcare standards (e.g., JCIA, DGDA, DG Health), and maintain robust safety protocols across all engineering operations.
- **Maintenance and Calibration Management:** Oversee scheduled preventive maintenance, breakdown response, and calibration of hospital infrastructure systems and critical medical equipment to ensure operational readiness.
- **Medical Systems Oversight:** Monitor and maintain specialized hospital systems, including HVAC, medical gas pipelines, nurse call systems, and biomedical equipment, to meet clinical demands.
- **Interdepartmental Coordination:** Maintain proactive liaison with clinical, administrative, and support departments to ensure seamless operations and minimize disruptions to patient care.

The Civil Engineers Limited.

JR Casero Tower, 46, Mohakhali C/A, Dhaka

The Civil Engineers Limited has been shaping skylines and redefining infrastructure with innovation, precision, and excellence. Their decades of expertise have earned them a reputation as a trusted leader in engineering, construction, and project management.

Project Engineer (QS & Documentation) 02/2018 – 06/2018 [Full-time]

As the Project Engineer (QS and Documentation), my roles were to oversee financial, contractual, and technical documentation for civil works at Matarbari Power Plant construction site. The key responsibilities include:

- **Quantity Surveying & Measurement:** Perform detailed quantity takeoff, measurement, and certification of subcontractor work, material reconciliation, and site activities in accordance with BOQ and contract specifications at the Matarbari Power Plant construction site.
- **Billing & Contract Management:** Prepare, verify, and certify Running Account (RA) bills, final bills, and variation orders, ensuring strict compliance with contractual terms, BOQ, and technical specifications.

- **Material Reconciliation & Reporting:** Prepare and maintain monthly, quarterly, and annual material consumption reports and reconciliation statements to ensure accurate tracking of site resources.
- **Documentation & Record Management:** Maintain comprehensive site documentation including Daily, Weekly, and Monthly Progress Reports (DPR/WPR/MPR), site diaries, As-Built drawings, RFI registers, and submittal logs for management and client reporting.
- **Regulatory & EHS Compliance:** Update and manage all project documentation in compliance with JICA Guidelines, environmental, health, and safety (EHS) policies, and applicable contractual standards.
- **Quality Assurance & Site Compliance:** Ensure adherence to Quality Assurance Plans (QAP) and technical specifications for all civil works, coordinating inspections and approvals with the client (CPGCBL), consultants, and contractors.
- **Stakeholder Coordination:** Maintain proactive coordination with the client, consultants, and subcontractors for progress monitoring, technical clarifications, and timely resolution of site issues.
- **Planning & Progress Monitoring:** Support project scheduling activities by identifying discrepancies between planned and actual progress and assisting in schedule updates to maintain project timelines.

The Christian Co-Operative Credit Union Ltd., Dhaka 173/1/A, East Tejturibazar, Tejgaon, Dhaka

Founded in 1955, Dhaka Credit, the largest Christian cooperative credit union in Bangladesh, serves over 45,000 members with a wide range of financial services. It operates 12 service centers and 23 collection booths, offering about 86 products.

Assistant Engineer – Civil

01/2016 – 02/2018 [Full-time]

As an Assistant Civil Engineer, my primary responsibilities encompass the following:

- **Facility and Infrastructure Management:** Oversee the daily maintenance of the institution's office buildings, branches, vaults, and operational facilities to ensure a safe and professional environment.
- **Branch Expansion and Renovation:** Plan and execute new branch setups, office remodeling, and renovation projects in compliance with institutional standards and regulatory requirements.
- **Civil Works Supervision:** Supervise ongoing civil construction, interior fit-out, and finishing works at institutional premises, ensuring quality workmanship and adherence to approved designs and specifications.
- **Bill of Quantities (BOQ) Preparation and Cost Estimation:** Prepare Bill of Quantities (BOQ), cost estimates, and comparative statements for civil works, renovation projects, and annual maintenance contracts to ensure budget efficiency.
- **Vendor and Contractor Management:** Coordinate with contractors, suppliers, and service providers to ensure timely execution of civil and maintenance works while maintaining value for money and quality deliverables.
- **Procurement and Budgeting Support:** Support procurement processes for construction materials, AMC contracts, and facility services, following institutional financial and procurement policies.
- **Regulatory and Safety Compliance:** Ensure all civil works and facility operations comply with applicable building codes, fire safety regulations, and occupational health and safety standards.
- **Documentation and Reporting:** Maintain accurate project records, site inspection reports, work completion certificates, and progress updates for internal management and audits.
- **Space Planning and Interior Coordination:** Plan and coordinate spaces, furniture layouts, and interior designs for offices and branches, reflecting the institution's corporate identity.
- **Asset and Property Management:** Assist in maintaining the institution's property register, monitoring lease agreements, and coordinating with landlords for property maintenance and compliance.

PROJECTS

AKIJ Mediplex Limited

Successful Handovers (100% complete & Functional)		No. of Stories	Area (Sft)
✓	Diagnostics & Consultation Center at Mirpur-10	10 Storied	27,500

AKS Khan Healthcare Limited

Successful Handovers (100% complete & Functional)		No. of Stories	Area (Sft)
✓	Diagnostics & Consultation Center at Chakaria	7 Storied	27,900
✓	Diagnostics & Consultation Center at Kamrangirchor	5 Storied	19,000
✓	Diagnostics & Consultation Center at Cox's Bazar	5 Storied	14,700
✓	Diagnostics & Consultation Center at Mymensingh	10 Storied	37,500
✓	Diagnostics & Consultation Center at Chattogram	2 Storied	12,000
✓	Retail Chain Model Pharmacy Outlet	45 plus outlets	

Divine Mercy Hospital Limited

Successful Handovers (100% complete & Functional)		No. of Stories	Area (Sft)
✓	300-Bed Hospital Building	1 Basement & 7 floor	2,65,000
✓	Effluent Treatment Plant (ETP)	Turnkey	5000
✓	Sewerage Treatment Plant (STP)	Turnkey	3000
✓	Accommodation Building	7 Storied	25,500
✓	Substation & HVAC Chiller Building	3 Storied	6,500
✓	Laundry Building	3 Storied	3,600
✓	Land Development and retaining boundary		11 Acre Land

Matarbari 600x2 MW Ultra Super Critical Coal-Fired Power Plant Project

Successful Handovers (100% complete & Functional)		No. of Stories	Area (Sft)
✓	Township Development		55,000
✓	Consultants' Accommodation Building (CAB)	3-Storied	17,500
✓	Employees' Accommodation Building (EAB)	3-Storied	15,500
✓	New Office Building (NOB)	5-Storied	14,500
✓	Watch Towers	10x2-Storied	38,000

The Christian Co-operative Credit Union Ltd., Dhaka

Successful Handovers (100% complete & Functional)		No. of Stories	Area (Sft)
✓	Residential cum commercial building at Dhaka	7-storied	11,200
✓	Community Center and guest house at Bandura	5-Storied	12,500
✓	Resort & training center development at Mothbari		2.5 acre land
✓	Super shop and community center at Savar	1-Storied	7,500

SKILLS

Technical Skills: Architectural & Structural Standards, AutoCAD, AutoCAD & Technical Drawing Interpretation, Blueprint & Documentation Management, BOQ & Cost Estimation, Budgeting & Cost Control, Building Codes & Regulatory Compliance, Civil Engineering and Architecture, Construction, Housing Development, Housing & Infrastructure Development, MS Office, Project Management & End-to-End Execution, Project Planning & Scheduling, Public Procurements, Quantity Surveying & Billing, Risk Identification & Mitigation, Scheduling & Resource Allocation, Site Inspection & Quality Control, Specifications & Tender Documentation.

Organizational Skills: Administration, Analytical & Critical Thinking, Conflict Resolution, Contract Negotiation & Performance Evaluation, Cross-functional Collaboration, Documentation Management, Financial & Compliance Oversight, Formal Presentation & Board Reporting, Multi-disciplinary Team Management, Operational Leadership & Decision-Making, Regulatory & Compliance Knowledge, Stakeholder & Vendor Management, Teamwork and Leadership, Verbal & Written Communication (English & Bengali)

EDUCATION

Masters of Science in Environmental Sciences & Management 12/2020 - 07/2022
JAHANGIRNAGAR UNIVERSITY [GPA: 3.47 out of 4.00]

Bachelor of Science in Civil Engineering 10/2011 - 11/2015
UNIVERSITY OF ASIA PACIFIC [GPA: 3.29 out of 4.00]

Higher Secondary School Certificate in Science 08/2008 - 07/2010
NOTRE DAME COLLEGE [GPA: 4.60 out of 5.00]

Secondary School Certificate in Science 01/1996 - 06/2008
Memorial Christian High School [GPA: 5.00 out of 5.00]

PUBLICATIONS & SURVEYS

ICCESD 02/2020

Rahman, F., Roy, C., Tasnuva, S., Bayen, A. R., Ahmed, J., and Kulsum, U. "A typological analysis on the strategies of bus priority lanes on city streets: A recommendation for Bangladesh". Proceedings of the 5th International Conference on Civil Engineering for Sustainable Development, (ICCESD 2020), 7~9 February 2020, KUET, Khulna, Bangladesh.

Jahangirnagar University 04/2022

"Assessment of Knowledge and Practices regarding the Fire Evacuation System in Cox's Bazar District Sadar Hospital, Bangladesh", was supervised by Dr. A. K. M. Rashidul Alam (Professor of the Department of Environmental Sciences at JU). The primary objective of this assessment was to raise awareness among the hospital workers and minimize the financial burden of damages incurred during a fire.

Railway system in Bangladesh & operation of Kamalapur Railway Station 11/2014 - 11/2014

"The railway system in Bangladesh and the operation of Kamalapur Railway Station" were supervised by Dr. Rumman Mowla Chowdhury, an Assistant Professor in the Department of Civil Engineering at the University of Agriculture and Power (UAP). The project aimed to explore the technology and materials employed in a railway station and understand the overall system's operation.

Waste Disposal & Recycling Process in Capital City Dhaka 06/2014 - 10/2014

"The waste disposal and recycling process in Capital City Dhaka", supervised by Dr. Nehreen Majed (Associate Professor of the Department of Civil Engineering at UAP), was the subject of a survey and pilot project in which I was involved.

CERTIFICATIONS
